Green Energy  
HEATING-COOLING-POWER

## Retrofit Wells with CeraPhiWell®

CeraPhiWell® technology enables end-of-life oil & gas wells to produce clean baseload commercial geothermal energy.

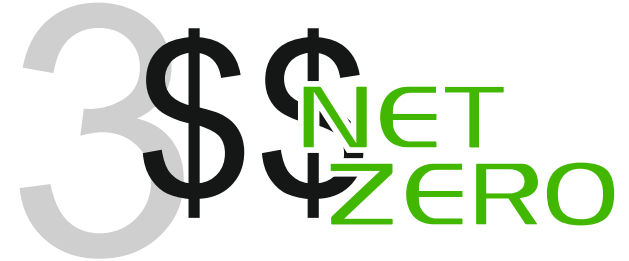

# 2

Oil & Gas  
-----  
→  
~\$300/MWh  
Revenue

## Deploy RenewaBit Data Centres

RenewaBit builds and operates small onsite data centres (400sqft/MW) that generate ultra high-yield returns on energy via crypto mining.

## Increase Profit and Achieve Net Zero

GreenFlash™ transitions end-of-life wells from a liability to an asset, increasing profitability of well sites whilst supporting vital net-zero goals.
