

POWER RENEWABLES SUPPLEMENT

**Created in partnership with
the 2025 RE+ Conference**

Already included in the
RE+ Poster Program -
Receive an additional
25% off

POWER and the 2025 RE+ Event will once again partner for our fourth annual supplement in September 2025. This exclusive supplement features the latest technical innovations driving solar power, storage, and smart energy today. Created in partnership with RE+ and their technical team, POWER's editors will update attendees and our readership on the technologies, processes and innovations, which are moving energy forward.

**Prominent
Placement

JULY 31st**

FREQUENTLY ASKED QUESTIONS:

Do we have to be a sponsor of RE+ to participate? No, whether you are participating in RE+ or simply want to reach the audience, you can participate in the project.

How is this different from what other publishers are offering? Unlike other media brands which are simply offering bonus distribution, this a true partnership between POWER and RE+ where the event helps to promote the project to attendees through their email efforts as well as within the APP.

How large is POWER's Renewables segment? It's one of, if not THE largest segment of our readership.
